Reference: Request for Support of Ban on Antibiotics in Animal Feed

Dear Commissioner Henney:

I am strongly requesting your support for a ban on the addition of antibiotics to animal feed. We are all aware that that has been an overabundant use of antibiotics in our daily lives. This overuse has contributed to antibiotic resistant bacteria.

Life threatening infections in humans may have no available treatment protocol if the practice of overuse of antibiotics is not curbed now. Please support the petition filed by the Center for Science in the Public Interest (CSPI)

Sincerely

**Anne Marie Coleman
